

GBR BIOLOGY

STORIES | KNOWLEDGE | EDUCATION | RESEARCH

At GBR Biology Education we offer personalised itineraries to meet the curriculum needs of your students. With 8 years' experience in specialised education tours, we have a team of enthusiastic and experienced Marine Biologists and Cultural Guides. We are ready to share the ecological and cultural stories of the World Heritage Great Barrier Reef. We offer students the best classroom in the world as they engage in and explore through place-based learning. We look forward to working with you in building your immersive Curriculum linked experience.

CROSS CURRICULUM PRIORITIES

Let us work with you to target cross curriculum priorities.

SUSTAINABILITY

At GBR Biology we link the site specific knowledge of the reefs we visit with site stewardship initiatives. Sharing stories of the resilience of the Great Barrier Reef and the programs and initiatives we have in place to build reef resilience.

ABORIGINAL AND TORRES STRAIT ISLANDER HISTORIES AND CULTURES

Our team of Cultural Guides provide connections to the land and sea country of which we visit. Offering a cultural perspective to enhance students' knowledge and engage in the cultural values of the Great Barrier Reef.
